

keys4kids

Children are initially taught using lower case lettering - yet Keyboards all have upper case lettering. Inpace Limited has a low cost solution to this problem.

These Keyboard Gloves have been specially designed with young children and those with special needs in mind.

The Keyboard Glove will protect the keyboard from dirt, dust and sticky fingers! Further more they can be supplied with a Velcro attachment system making them easy to put on and take off in order to move to the next level of keyboarding.
